Aug, 22nd, 2017

10:15 AM - 4:45 PM

Wild, Wonderful West

A morning at play, an
afternoon applying
improvisation to the
Autry's new brand
communication strategy.

FACILITATORS

Barbara Tint is a Psychologist and Professor of Conflict Resolution at Portland State University and many other Universities worldwide. She is also a global trainer, facilitator and consultant in areas of conflict resolution, dialogue, gender relations, intercultural dynamics, power and status, leadership and change. She has been studying and applying improvisation since 2009 and serves as the President of the Applied Improvisation Network.

Chris Esparza works at the University of Oregon's Holden Center for Leadership & Community Engagement (but is an L.A. native!). His primary work infuses principles of improvisation into leadership development curriculum, but also extends to facilitating campus workshops and trainings on ambiguity, change, creativity, group development, social power and status, and equity issues.

The Applied Improvisation Network (AIN) is an international group of specialists who apply improvisation to work that includes leadership training, organizational effectiveness, creativity, collaborative storytelling, Agile development, HR and talent development, disaster recovery, health care, and PTSD treatment for veterans.

bigSTORY™, founded in 2015 by Mike Bonifer and Jeremi Karnell, is a global network of specialists whose work accounts for how stories affect organizations and shape their futures. Our unique, improvisational approach to storytelling, in which your story and my story become our story, has been adopted by clients around the world, in fields ranging from brand communication to leadership and organizational effectiveness.
